Tom and Scott

Thanks for providing the call in number. Sorry I dropped off without saying goodbye. Sounded like things were wrapping up and I meant to press mute and hung up by mistake.

Scott I am not sure if you were on the phone as well or in the room- I think you were on the line but it seemed like you maybe could hear better than I could?

I could not hear that well and there was minimal improvement when the phone was moved. Overall Tom you were the only one I could hear clearly and it was a struggle to focus and try to make out the rest.

It didn't sound like I was missing anything earth shattering of course, but I do think it may be good for me to continue to participate in this way to keep more in the loop so long as it is not burdensome to provide the conference line and if there is a way to improve sound- not sure if it will be effective to just ask folks to speak up? But maybe that is worth a shot?
